### Artillery Committee

The Olympic torch signifies the continuation of a long tradition. It is not just the tradition, but also the spirit of the games, inclusion, and the joy of a game.

Likewise, we as a committee, may not be that old to be ancient, but do carry the ancient devotion to knowledge and learning. We have imbibed the spirit of sharing knowledge from all the artillery batches before us and we keep the promise to continue the same for the future to come.

And with that promise, we pass on the torch to the new committee.

**Knowledge is power, power is bliss – Members Artillery Committee FYMMS-2019**
